

It is my understanding that the FCC introduced new broadcast service known as Low Power-FM, which may impact my ability to receive and hear my K-LOVE radio station in San Antonio. K-LOVE is important to me and many of my friends within my community. K-LOVE provides a valuable service to me and others and it is in the public's best interest to allow K-LOVE to operate as is. San Antonians enjoys family-friendly programming which supports wholesome values and provides positive and encouraging support to our community. Please do not force K-LOVE from the air from any of it's serving areas. Thank you for your support in this matter.
